SUMMARY

Senior UI/UX Engineer and Product Designer with **6+ years** shipping AI-powered SaaS and consumer products across interior design, OTT, healthcare, fintech, and blockchain. Currently leading intelligent UX at Cyncly for tools used by IKEA, Lowe's, Leroy Merlin, Howdens, and Mitre 10 — designing AI-to-3D workflows, conversational design interfaces, and generative personalization systems. Skilled at turning complex AI capabilities into intuitive product experiences, building scalable design systems, validating with research, and prototyping rapidly with modern AI tooling.

EXPERIENCE

Cyncly — Senior UI/UX Engineer Apr 2024 – Present
Bengaluru, India

- **Lead AI-driven UX** for next-generation kitchen, bathroom, and interior design SaaS serving global retailers including IKEA, Lowe's, Leroy Merlin, Howdens, and Mitre 10.
- **Spearhead design and R&D** for flagship AI features — Auto Design, Kitchen GPT, Inspire AI, and Layout Intelligence — defining how users discover, visualize, and personalize spaces.
- **Architect AI-to-3D workflows** and conversational, prompt-based interfaces for real-time editing of layouts, materials, and finishes, making complex design decisions feel effortless.
- **Established scalable design systems** and compressed discovery cycles from weeks to sprints by integrating modern AI prototyping tools across Product, Engineering, and Catalog teams.

ROKIT Group — Product & Design Lead May 2021 – Mar 2024
Los Angeles, USA (Remote)

- **Shaped UX and product strategy** across a diverse portfolio — OTT streaming, video games, healthcare, crypto/NFT, messaging, ROKIT Phones, Homes, and Drinks.
- **Partnered with executive leadership** (VP, CEO, Chairman) to define product direction, maintain UX consistency across business lines, and drive investor readiness.
- **Owned end-to-end delivery** from concept to launch — product design, web development, branding, and pitch decks — backed by research and usability validation.

SNAPX Technologies LLP — Founder & Product Designer Jan 2020 – Apr 2024
Patna, India

- **Delivered 40+ digital products** for startups and enterprises across healthcare, education, NFT/blockchain, MSMEs, engineering, and finance.
- **Led end-to-end startup services** — UI/UX, full-stack web development, branding, and design systems — taking products from concept to market with founders.

Innovatia Marketing & Technology Solutions — UI Designer May 2019 – May 2021
New Delhi, India

- **Designed interfaces** for e-commerce, fintech, CRM, and enterprise products from concept to delivery, collaborating with developers on usability and shipping production-ready UI.
